

Arch Wireless Two-Way Messaging

The Motorola P935 This convenient, wireless solution lets you send, receive and forward emails, receive web updates, and manage both your business and personal life — all from the palm of your hand

Features & Benefits

Stay connected

- Send, receive and forward emails wirelessly
- receive custom selected information (weather, market prices, news, sports)
- receive text messages from other wireless devices, computers, phones or an operator

Ease of Use

- Easy-to-use QWERTY keyboard makes it more convenient to send messages than a cell phone key pad

Stay Organized

- PDA functionality
- Beam information and applications through IRDA port
- Storage for thousands of names and addresses
- Calendar and scheduler
- Synchronize to desktop calendar and contacts
- To-do list
- Memo pad
- Calculator
- Alarm clock
- Cut, copy, paste from one application to another

Superior Service

- Excellent network reliability
- Coverage throughout North America
- Significantly more spectrum than other wireless networks
- 24/7 customer service
