

Arch Wireless Two-Way Messaging

The Motorola Talkabout T900

enables you to send and receive messages while you are away from the office. Perfect for professionals on-the-go, this pocket-size wireless device enables you review and respond to email throughout the day. This cost effective solution will increase your productivity without affecting your bottom line.

Wireless E-mail

- Send and receive messages from virtually anywhere in the U.S.
- Email and Calendar can be read, forwarded and managed remotely
- Offers the convenience of sending e-mail via an operator dispatch

Messaging and More

- Offers constant access to information
- Receive messages from other wireless devices, computers, phones, or an operator
- Saves messages for up to 96 hours
- Store up to 250 entries in address book
- Free weather, stock market updates, headline and sports news
- Paging and voicemail add-on services are available

Exceptional Value and Service

- Combines a cost effective solution with the best wireless network available
- Simplified billing – instead of block pricing, pay only for what you use over the plan
- Excellent network reliability-extends service throughout the 50 states
- 24/7 customer service- for your questions and convenience

The Most Cost Effective Solution

- With Arch's Two-Way Messaging, you simply pay for what you use.
